Fund Purpose:												
This fund accounts for the operating costs of Century Center, the City's convention center. Century Center is currently managed by SMG Corporation.												
Explain Significant Revenue, Expenditure and Staffing Changes/Variances Below:												
Charges for Services has been budgeted to increase due to new business generated by the two new hotels opening in downtown South Bend in 2018. The increase in supplies cost is largely due to reclassification of Audio Visual Expense. This expense in previous years was categorized as a Professional Service, however in order to stay consistent with other cost of sales items it was reclassified as supplies. This reclassification is also the reason Professional Services decreased by a large amount. Utilities in previous years did not include telephone or communication lines. These two were reclassified to utilities from professional services (communication lines) and Travel (telephone). This reclassification is the reason for the decrease in the travel amount for 2018. Insurance decreased due to the incident free history that Century Center has enjoyed in recent history. The increase in Other Services & Charges is largely due the F&B Management Fee being included within this category as it was not in the past.

2018 Significant Changes/Challenges/Opportunities

- The addition of both the Aloft and Courtyard Hotels to downtown allows the Century Center to attract bigger, more profitable events
- The current low unemployment rate means that it may be more difficult to attract additional staff when it is needed for bigger events
- Century Center has been selected to host 125 meeting planners in September which could lead to a greater presence outside of the local market

Fund Purpose:										
This fund was established in 2012 to account for capital expenditures at Century Center. The funds are accounted for in a separate capital bank account. The fund received a capital contribution of \$575,000 during 2013 that has been used to pay for capital improvements at the Century Center.										
Explain Significant Revenue and Expenditure Changes/Variances Below:										
This fund's only current activity is interest revenue. There are no capital expenditures planned to be spent out of this fund in the foreseeable future.										
The Century Center's capital needs are being met by an allocation from the Saint Joseph County Hotel/Motel Tax Board. These capital expenditures for the Century Center are paid directly from the County budget and do not pass through the City's accounting system. For 2018, the Century Center is requesting \$909,000 for capital expenditures to be paid from the Hotel/Motel Tax Fund Budget. This request is subject to St Joeseph County appropriation.

Fund Purpose:											
This fund was established in 2015 to account for debt service payments of the 2015 Century Center Energy Conservation bonds. The bond proceeds were used to make improvements at the Century Center including a new roof and other energy efficiency projects. The bonds will be paid off over a 15 year period and the final payment is due on May 1, 2031. This fund receives revenue in the following ways: a pledge of hotel/motel tax revenue from Saint Joseph County in the amount of \$221,437 per year starting in 2018; an operating transfer from Century Center; and a federally-subsidized interest rebate of approximately 80% of interest paid.											
Explain Significant Revenue and Expenditure Changes/Variances Below:											
Hotel/motel tax revenue of \$221,437 has been pledged by the Saint Joseph County Hotel/Motel Tax Board starting in 2018. The principal on the bonds increased accordingly during 2018.											
Cash Reserve No reserve requirement
