WHEREAS, upon such surveys, investigations and studies being made, the Commission finds that the Amended and Restated Plan, cannot be achieved by regulatory processes or by the ordinary operations of private enterprise without resort to the powers allowed under the Act because of lack of local public improvements and multiple ownership of land and that public health and welfare will be benefited by the accomplishment of the Amended and Restated Plan for the Area; and

WHEREAS, there was presented to this meeting of the Commission for its consideration and approval, a copy of the Amended and Restated Plan, a copy of which is attached hereto as Exhibit C and made a part hereof; and

WHEREAS, the Commission has determined to amend the property acquisition list for the Area (the "Area Acquisition List") to add certain additional parcels of real property in the Area to the Area Acquisition List to provide for possible acquisition of such parcels in furtherance of the Amended and Restated Plan, which parcels are listed in Exhibit D attached hereto and made a part of hereof; and

WHEREAS, the Commission desires to transfer certain parcels of property previously included on the River West Area acquisition list (the "River West Acquisition List"), as set forth in Exhibit E attached hereto and made a part of hereof to the Area Acquisition List as set forth in the Amended and Restated Plan for said area as such parcels are located in the Transferred Area; and

WHEREAS, Section 39 of the Act has been enacted and amended to permit the creation of allocation areas within an area needing redevelopment to provide for the allocation and distribution, as provided in the Act, of the proceeds of taxes levied on property situated in an allocation area, and the Commission deems it advisable to expand the Existing Allocation Area to include the Expansion Areas with a base date for such Expansion Areas as determined by Section 39 of the Act; and

WHEREAS, the Transferred Area has previously been part of the River West Development Allocation Area and the Commission deems it advisable to also expand the Existing Allocation Area by adding the Transferred Area to the Existing Allocation Area; and

WHEREAS, in determining the location and extent of the Expansion Areas, the Commission has determined that no residents of the Expansion Areas will be displaced by the redevelopment thereof in furtherance of the Amended and Restated Plan; and

WHEREAS, the Amended and Restated Plan, conforms to other development and redevelopment plans for the City;

NOW, THEREFORE, BE IT RESOLVED by the South Bend Redevelopment Commission as follows:

1. The Commission hereby finds that the Expansion Areas and the Transferred Area are “areas needing redevelopment” within the meaning of Section 15 of the Act.

2. The Commission hereby finds and determines that the Expansion Areas and the Transferred Area are areas needing redevelopment to an extent that cannot be corrected by regulatory processes or by the ordinary operations of private enterprise without resort to the powers allowed under the Act, and that public health and welfare will be benefited by the redevelopment of the Expansion Areas and the Transferred Area under the Act.

3. The Commission hereby finds and determines that it will be of public utility and benefit to include the Expansion Areas and the Transferred Area in the Existing Area to amend the boundaries of the Existing Area as set forth herein and redevelop the Expansion Areas and the Transferred Area under the Act pursuant to the Amended and Restated Plan.

4. The Commission hereby finds and determines that the Amended and Restated Plan conforms to other development and redevelopment plans for the City.

5. The Amended and Restated Plan is in all respects approved.

6. The maps and plats of the Area showing the Expansion Areas and the Transferred Area and their respective boundaries, the location of the various parcels of property, streets and alleys, and other features affecting the acquisition, clearance, replatting, replanning, rezoning, redevelopment or economic development of the Expansion Areas and the Transferred Area, and the parts of the Expansion Areas and the Transferred Area that are to be devoted to public ways, levees, sewerage, parks, playgrounds and other public purposes under the Amended and Restated Plan, are hereby approved and adopted as the maps and plats for the Area, the Expansion Areas and the Transferred Area, respectively.

7. The list of the parcels of property set forth at Exhibit D which may be acquired in furtherance of the Amended and Restated Plan is hereby approved.

8. The Commission hereby approves of the transfer of the parcels of property listed at Exhibit E from the River West Acquisition List to the Area Acquisition List.

9. The Transferred Area is hereby designated as part of the Existing Allocation Area. The base assessment date for the Transferred Area shall remain the same as the base assessment date for the Transferred Area when previously in the River West Development Area Allocation Area.

10. The Expansion Areas are hereby designated as an "allocation area" pursuant to Section 39 of the Act for purposes of the allocation and distribution of property taxes on real property for the purposes and in the manner provided by said Section. The Existing Allocation Area shall hereafter be deemed to include the Expansion Areas and the Transferred Area and as expanded, the Existing Allocation Area shall be referred to hereinafter as the "Allocation Area". Based on an examination of the Area and information provided to the Commission, the Commission hereby finds that the adoption of the allocation provision as provided herein will result in new property taxes in the Area that would not have been generated but for the adoption of the allocation provision because of the lack of local public improvements which has resulted in a less than desirable level of private capital investment in the Expansion Areas and the Transferred Area. Any property taxes subsequently levied by or for the benefit of any public body entitled to a distribution of property taxes on taxable property in said allocation area shall be allocated and distributed as follows:

Except as otherwise provided in said Section 39, the proceeds of taxes attributable to the lesser of the assessed value of the property for the assessment date with respect to which the allocation and distribution is made, or the base assessed value, shall be allocated to and when collected paid into the funds of the respective taxing units. Except as otherwise provided in said Section 39, property tax proceeds in excess of those described in the previous sentence shall be allocated to the redevelopment district and when collected paid into the South Side Development Area Allocation Area No. 1 Allocation Fund for said allocation area that may be used by the redevelopment district to do one or more of the things specified in Section 39(b)(3) of the Act, as the same may be amended from time to time. Said allocation fund may not be used for operating expenses of the Commission. This allocation provision shall expire with respect to the Expansion Areas on the later of twenty-five (25) years from the date of issuance of debt secured by the allocated property taxes, or at such time as no bonds payable from allocated property taxes are outstanding. Except as otherwise provided in the Act, before June 15 of each year, the Commission shall take the actions set forth in Section 39(b)(4) of the Act

11. "Property Taxes" referred to herein shall mean taxes imposed under IC 6-1.1 on real property only.

12. The Secretary of the Commission is directed to file a certified copy of the Amended and Restated Plan with the minutes of this meeting.

13. The officers of the Commission are hereby directed to make any and all required filings and recordings with the Indiana Department of Local Government Finance, the St. Joseph County Auditor and the St. Joseph County Recorder in connection with the actions of the Commission contained in this Resolution regarding the Allocation Area, as amended hereby.

14. This Resolution, together with supporting data, shall be submitted to the Area Plan Commission and the Common Council of the City, as provided by Section 16 of the Act, for the approval of this Resolution and the Amended and Restated Plan, and if approved by both bodies, this Resolution and the Amended and Restated Plan shall be submitted to public hearing and remonstrance as provided by Sections 17 of the Act, after public notice in accordance with Sections 17 and 17.5 of the Act and Indiana Code 5-3-1 and after all required filings with

governmental agencies and officers have been made pursuant to Sections 17(b) and 17(c) of the Act.

15. All orders or resolutions in conflict herewith are hereby rescinded, revoked and repealed in so far as such exist.

16. This Resolution does not affect any rights or liabilities accrued, penalties incurred, offenses committed, or (except as otherwise provided herein) proceedings begun before the effective date of this Resolution.

17. This Resolution shall be in full force and effect after its adoption by the Commission.

The purpose of the South Side Development Area Plan is as follows:

- To provide a broad vision and strategy for the economic and physical revitalization of the South Side Development Area, and
- To establish a framework for ongoing collaborative planning efforts involving residents and other property owners, business owners, civic associations, institutional partners, and local government.

History of South Side Development Area

Tax Increment Financing ("TIF") District

The South Bend Redevelopment Commission may implement the use of TIF within a redevelopment area pursuant to state law (I.C. 36-7-14).

TIF districts target blighted areas in order to transform them into viable areas making the community more appealing and attractive for economic development, which creates a better quality of life for the districts' residents. TIF districts are powerful and effective tools that may provide financing for infrastructure improvements within redevelopment projects which may, in turn, entice market dollars back into abandoned and dilapidated areas. The lifespan of a TIF district varies based upon the time of its creation.

TIF creates revenues for improvements without raising taxes, offers incentives for businesses and developers, and builds communities. TIF works by capturing additional property tax revenue due to the revitalization of a designated area. The assessment rate of the year in which the TIF is established is used as the base year, and tax revenues generated due to the increase in assessment over the base year assessment of properties within the TIF district are set aside for use in that TIF district. Thus, no new taxes or increases in tax rates occur, rather TIF funds are generated when property values improve due to the overall improvement of the TIF district.
