

SBStat Post Meeting

Urgent Issues Review During Meeting:

- N/A

Decisions and Key Takeaways

- Regional Crime Lab has been awarded one of the two grants that it applied for. The grant will cover the entire cost of the Laboratory Information Management System.
 - Moving to purchase after funds released in October 2019
 - Planning implementation of LIMS for 2020
- Home Grown Program is in progress focusing on wrapping up or finalizing agreements (partnership MOUs, school engagement, nomination and letter of commitment for candidates) for various stakeholders of the project.
- Updates on recruitment strategies
 - Marketing & relationships - Open house with training was a success with plans to run another, text messaging application reminders were a quick win, and targeted Facebook Ads to continue to run with adjustments until stable for a pass off to Police Department.
 - Recruitment data - Release of data, context blog and insights derived from dashboard
 - Policy questions - ILEA standards attrition correlation and the questioning of the relevancy of the standards. Collecting data through city partnerships and a lean toward taking to the State. Discussion of Drug guidelines, their ramifications and in-scope options.
 - Process innovation - overlapping cycles implementation and recruitment stages improvements in discussion

Potential Topics to Discuss Next Meeting:

- Regional Crime Lab LIMS projected revenue/KPI measure creation and implementation schedule
- Home Grown Program progress, implementation plan, and success measures
- Continuing progress on recruitment strategies

Other Topics Discussed

- Other regional academy options and Training Board relationships to ILEA
- Potential future collaborative projects looking into 2020
