OS Open Space

Section 21-04.01: OS Open Space

(a) Intent

The OS District is established to promote the development of a range of publicly owned open spaces dispersed throughout the City.

The following are typical characteristics of the OS District:

- Active or passive open spaces, including neighborhood parks, formal greens or plazas, greenways, trails, recreational fields, or natural spaces that accommodate a wide range of ages, physical abilities, and programming
- Buildings and uses that activate and address the open space or support park functions
- Wide sidewalks and pathways for multiple uses surrounded by a formal or informal arrangement of trees and landscaping
- Seating and site amenities that encourage pedestrian use and comfort

Access & Parking

(d) Access & Parking

Pedestrian Access

All parks shall have at least one pedestrian access point from each abutting street.

Paths within the open space shall provide pedestrians with convenient routes between abutting streets, building entrances, and major design features.

Paths may meander to take advantage of view corridors or topographical and landscape features.

Bicycle Access

See <u>Section 21-07.02</u> for Bicycle Parking requirements.

Parking Lot Location (Distance from Lot Line)

(g) Building Standards

Building Materials

Restrictions on building materials shall apply to all front and corner facades of non-residential buildings.

Building materials used on the front and corner facade shall extend a minimum depth of 16" along the side facade.

E.I.F.S. is not permitted on the ground floor except as trim.

Standard, fluted, or split face concrete masonry units above the basement level are prohibited as face material.

Unfinished metal, plywood, unfinished precast or poured-in-place concrete are prohibited.

Windows and doors on a ground floor front/corner facade shall have clear, transparent glass that has a min. VLT of 50% and a max. VLR of 25%.

See <u>Section 21-08</u> for full building standards.

Section 21-04.02: U University

(a) Intent

The U District is established to promote the development of major college or university campuses.

The following are typical characteristics of the U District:

- A diversity of uses, functions, and facilities that facilitate the highest level of education
- A range of commercial uses which are accessory to or typically associated with a college or university campus, such as a bookstore, hotel, food sales and service, school supplies, and personal services.
- Pedestrian-oriented scale with sidewalks and a formal or informal arrangement of trees and landscaping.

C Commercial

Section 21-04.03: C Commercial

(a) Intent

The C District is established to provide a location for medium- to high-intensity commercial uses that are auto-oriented, typically located along major corridors at the fringe of the City or as small groupings located outside of neighborhood centers.

The following are typical characteristics of the C District:

- Auto-oriented commercial uses that may include outdoor sales or operations
- Buildings located on larger lots and city blocks in a suburban format
- Coordinated to facilitate vehicular and pedestrian access from nearby neighborhoods
- Landscaped to be attractive and provide appropriate buffering to residential uses

Access & Parking

(d) Access & Parking

Pedestrian Access

A walkway shall connect the sidewalk to the main entrance.

Bicycle Access

See Section 21-07.02 for Bicycle Parking requirements.

Parking Access

If access is available from an alley which is open to traffic, there shall be no access allowed from the street.

If allowed, a maximum of one street curb cut is permitted per street frontage. Lots with large frontages may be granted a second street curb cut per the latest standards adopted by the Board of Public Works.

Parking Lot Location (Distance from Lot Line)

Parking is not allowed within any required building setback.

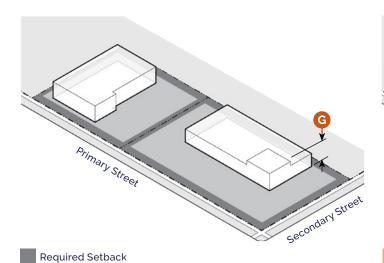

Required Spaces

Off-street parking areas are not required for any use. Any off-street parking areas provided, even though not required, shall be developed in compliance with the standards set forth in Section 21-07.03.

See Section 21-07 for full access and parking requirements.

Building Standards

(g) Building Standards	
Facade Transparency (min.)	
Ground Floor - Front Facade	40%
Ground Floor - Corner Facade ¹	20%
Building Materials	

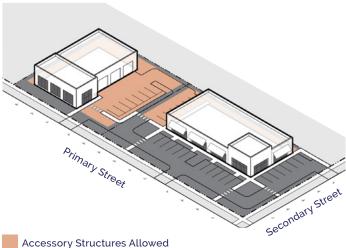

A minimum of 66% of each front or corner facade shall be constructed of E.I.F.S. or high quality natural materials, such as stone or brick; wood lap siding; fiber cement board siding; and glass. High quality synthetic materials may be approved by the Zoning Administrator. E.I.F.S. may constitute a maximum of 66% of the ground floor facade. Building materials used on the front and corner facades shall extend a minimum depth of 16" along the side facade. Standard, fluted, or split face concrete masonry units above the basement level are prohibited as face material. Unfinished metal, plywood, unfinished precast or poured-in-place concrete are prohibited.

Windows and doors on a ground floor front/corner facade shall have clear, transparent glass that has a min. VLT of 50% and a max. VLR of 25%.

See Section 21-08 for full building standards.

¹ If a building is located more than 50' from the corner lot line, the Zoning Administrator may waive this requirement if the transparency is not needed to meet the intent of this ordinance.

Parking Lot Screening (of 4 or more spaces)

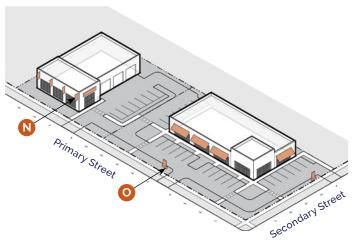

Parking that is visible from a street/open space, other than an alley, shall be screened by a Type 1 buffer.

Parking that is visible from a side/rear lot line abutting a S1, U1, or U2 district shall be screened by a Type 1 or 2 buffer. Buffers shall comply with Section 21-09.01(n).

See Section 21-09.01 for full landscape requirements.

- ¹ An existing tree of at least 2" caliper may fulfill this requirement.
- ² If a tree cannot be placed in a tree lawn, an alternate location may be approved by the Zoning Administrator.
- ³ The Zoning Administrator may waive the requirement for foundation landscape if a building is located more than 50' from the street.

Signs

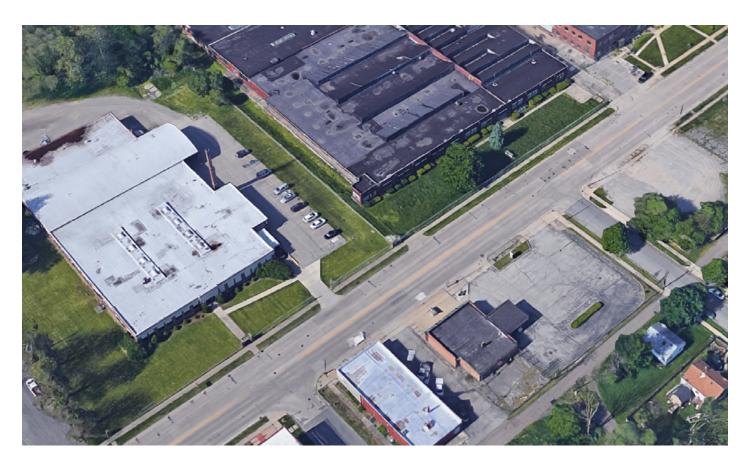

(j) Signs		
Total Signs Allowed		
Building Sign	Up to 10% of the total area of the building facade	N

Section 21-04.04: I Industrial

(a) Intent

The I District is established to provide a location for medium to high intensity industrial uses, typically grouped along highways and major streets and separated from residential uses.

The following are typical characteristics of the I District:

- Office/warehouse, distribution, wholesale, assembly, and manufacturing or processing facilities that may require substantial amounts of outdoor storage or operations
- Uses typically generate heavy traffic
- Buildings located on larger lots on bigger city blocks
- Landscaped to be attractive and provide appropriate buffering to other uses
