Independent Accountants' Review Report

Board of Directors and Shareholder
Green Demolition Contractors, Inc.
Chicago, Illinois

We have reviewed the accompanying financial statements of Green Demolition Contractors, Inc. (S-Corporation), which comprise the balance sheet as of December 31, 2024, and the related statements of income and retained earnings and cash flows for the year then ended, and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's financial data and making inquiries of Company management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

Our responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. These standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion.

We are required to be independent of Green Demolition Contractors, Inc. and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our review.

Basis for Qualified Conclusion

Accounting principles generally accepted in the United States of America require certain disclosures for employers that participate in multi-employer pension plans. Although the Company does participate in multi-employer pension plans, management has informed us that they believe it is impracticable to develop the information. Management has not determined the effects of this departure from accounting principles generally accepted in the United States of America on financial position, results of operations, and cash flows.

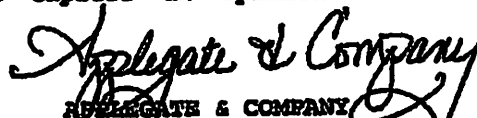

Accounting principles generally accepted in the United States of America require the Company to record leases in accordance with requirements primarily codified in FASB Accounting Standards Codification section 842 which generally require that all leases are classified as either an operating or financing type lease and that a right of use asset and lease liability is recorded on the balance sheet. Management has not applied this principle of lease classification and, therefore, information about the nature, amount, timing, and uncertainty of leases, right-of-use assets and lease liabilities, and cash flows arising from leases may be misstated. The effects of this departure from accounting principles generally accepted in the United States of America on financial position, results of operations, and cash flows have not been determined.

Qualified Conclusion

Based on our review, except for the effect of the matters described in the Basis for Qualified Conclusion paragraphs, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

Supplementary Information

The supplementary information included in the Schedules of Prime Costs, General and Administrative Expenses, and Contracts in Process is presented for the purpose of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements. The supplementary information has been subjected to the review procedures applied in our review of the basic financial statements. We are not aware of any material modifications that should be made to the supplementary information. We have not audited the supplementary information and do not express an opinion on such information.
