**Requested Action**

AN ORDINANCE OF THE COMMON COUNCIL OF THE CITY OF SOUTH BEND, INDIANA, AMENDING CHAPTER 21 OF THE SOUTH BEND MUNICIPAL CODE TO MAKE MISCELLANEOUS CHANGES FOR CLARIFICATION AND CONSISTENCY TO SIMPLIFY DEVELOPMENT PROCESS AND TO ACHIEVE HIGHER QUALITY DEVELOPMENT

---

**Project Summary**

Amend Chapter 21 of the South Bend Municipal Code to clarify, correct, or revise various sections to assist in development of a more vibrant and resilient community while improving the ease of use of the Zoning Ordinance.

---

**Analysis & Recommendation**

**Analysis:** Continuing to monitor and improve the Zoning Ordinance is vital to maintaining growth and development in a way that helps support economic growth and revitalizes neighborhoods. Since the last update to the zoning ordinance, various rules within it have been identified as overly restrictive, or as outdated and in need of modernization. For these reasons, staff recommends changing the ordinance to help streamline the development process and provide greater flexibility for developers; reduce the need for unnecessary variances from the code while not impacting the quality of development; and provide a number of updates that will bring the code up to date with current development trends. Additionally, there have been a number of typographical errors identified in the ordinance, as well as areas where further clarification is needed. Fixing these issues will improve understanding for users of the code.

The ordinance version approved by the Common Council on January 12, 2026, differed from the version recommended by the Plan Commission at its December meeting. Some non-substantive clarifications were made to the ordinance. Because state law requires that the Plan Commission and Common Council adopt identical language, the ordinance has returned to the Plan Commission for its ratification.

**Recommendation:** Based on the information available prior to the public hearing, the staff recommends the text amendment be approved as amended by Council.

TO MAKE MISCELLANEOUS CHANGES FOR CLARIFICATION AND CONSISTENCY  
TO SIMPLIFY DEVELOPMENT PROCESS AND  
TO ACHIEVE HIGHER QUALITY DEVELOPMENT

STATEMENT OF PURPOSE AND INTENT

The Common Council of the City of South Bend, Indiana, adopted a new zoning ordinance for the City of South Bend that went into effect on January 1, 2020. Since its adoption in November 2019, use of the Ordinance has identified a few standards that need further clarification, correction, or revision. Changes to these standards will support a more vibrant, resilient community while improving the ease of use of the zoning ordinance.

NOW, THEREFORE, be it ordained by the Common Council of the City of South Bend, Indiana, as follows:

SECTION I. Chapter 21, Zoning, of the *South Bend Municipal Code*, Article 2 Definitions & Measurements, Section 21-02.03 Measurements, subsection (b) Building Placement is hereby amended as follows:

- (3) **Building Setbacks.** A setback distance is measured perpendicularly from the lot line to the closest exterior wall of a building's facade, exclusive of building frontage type (e.g., porch, stoop). A setback is measured from the greater of an actual or proposed ~~street~~ right-of-way.

SECTION II. Chapter 21, Zoning, of the *South Bend Municipal Code*, Article 2 Definitions & Measurements, Section 21-02.03 Measurements, subsection (d) Building Form is hereby amended as follows:

(2) **Building Height (Stories).**

(D) A single one-story shared amenity space per building shall not count as a story toward the maximum number if it meets the following criteria:

- i. Is open only to building occupants and their guests;
- ii. Has a gross floor area of no more than 25% of the gross floor area of the floor below;

- iii. Is set back where it is not visible from the street; and
- iv. Has no significant impact, as determined by the Zoning Administrator, on surrounding residential uses in a S1, U1, or U2 district.

SECTION III. Chapter 21, Zoning, of the *South Bend Municipal Code*, Article 2 Definitions & Measurements, Section 21-02.03 Measurements, subsection (e) Building Components is hereby amended as follows:

- (1) When a building component is allowed to be built into a minimum required setback, it is called an encroachment and shall meet all regulations for building components per Section 21-08.01. Where a contextual setback is applied, the Zoning Administrator may allow additional building frontage type encroachment.

SECTION IV. Chapter 21, Zoning, of the *South Bend Municipal Code*, Article 2 Definitions & Measurements, Section 21-02.03 Measurements, subsection (f) Building Standards is hereby amended as follows:

**(1) Facade Transparency.**

(B) Façade transparency percentages are calculated independently for each floor on each facade.

~~(B)(C)~~

~~(C)(D)~~

Upper floor transparency is calculated based on the total façade area located between the surface of any floor to the surface of the floor above it or, if there is no floor above, from the surface of the floor to the surface of the roof. The Zoning Administrator may reduce the required transparency on the top floor of a building by up to 50% for designs consistent with the building's architectural style.

**(2) Building Width.** Width is measured as the horizontal length of a building façade measured parallel to a primary or secondary street. Building widths are applied only to facades visible from a street.

(A) For the Stacked Flats, Shop, and Mid-Rise/Tower building types:

(i) Elevated hallway connections between structures that are set back at least 20 feet from the front or corner facade shall not count toward continuity of building width.

(ii) The Zoning Administrator may permit an increase in the maximum building width of up to 25% to fill out the lot

frontage when it is contextually appropriate and the building design meets the intent of the ordinance.

### **RESOLUTION OF THE SOUTH BEND REDEVELOPMENT COMMISSION APPROVING AMENDMENTS TO THE DECLARATORY RESOLUTION AND THE DEVELOPMENT PLAN FOR THE RIVER WEST DEVELOPMENT AREA FOR THE PURPOSE OF ESTABLISHING NEW ALLOCATION AREAS AND RELATED MATTERS**

---

WHEREAS, the South Bend Redevelopment Commission (the “Commission”), the governing body of the City of South Bend, Indiana, Department of Redevelopment (the “Department”) and the Redevelopment District of the City of South Bend, Indiana (the “District”), exists and operates under the provisions of the Redevelopment of Cities and Towns Act of 1953 which has been codified in Indiana Code 36-7-14, as amended from time to time (the “Act”); and

WHEREAS, the Commission has heretofore adopted a declaratory resolution (as subsequently confirmed and amended from time to time, the “Declaratory Resolution”) designating an area known as the River West Development Area (the “Area”) as an economic development area pursuant to the Act, designating portions of the Area as allocation areas pursuant to Section 39 of the Act (collectively, the “Allocation Area”), and approving and subsequently amending from time to time a development plan for the Area (collectively, the “Plan”); and

WHEREAS, pursuant to Sections 15-17.5 of the Act, the Commission desires to further amend the Declaratory Resolution and the Plan to designate certain areas, each of which is presently part of the Allocation Area, as separate allocation areas pursuant to Section 39 of the Act to be known as (i) the “Lafayette North Allocation Area” as described and depicted at Exhibit A attached hereto (the “Lafayette North Allocation Area”), (ii) the “Lafayette South Allocation Area” as described and depicted at Exhibit B attached hereto (the “Lafayette South Allocation Area”), (iii) the “Ignition Park Allocation Area” as described and depicted at Exhibit C attached hereto (the “Ignition Park Allocation Area”), (iv) the “Downtown North Allocation Area” as described and depicted at Exhibit D attached hereto (the “Downtown North Allocation Area”), (v) the “Michigan Street Corridor Allocation Area” as described and depicted at Exhibit E attached hereto (the “Michigan Street Corridor Allocation Area”), (vi) the “Studebaker Campus Allocation Area” as described and depicted at Exhibit F attached hereto (the “Studebaker Campus Allocation Area”), (vii) the “Riverfront West Allocation Area” as described and depicted at Exhibit G attached hereto (the “Riverfront West Allocation Area”), and (viii) the “Downtown South Allocation Area” as described and depicted at Exhibit H attached hereto (the “Downtown South Allocation Area”) (clauses (i) through and including (viii), collectively, the “Allocation Areas”); and

WHEREAS, Section 39 of the Act has been created and amended to permit the creation and expansion of “allocation areas” to provide for the allocation and distribution of property taxes for the purposes and in the manner provided in said Section; and

WHEREAS, this Commission deems it advisable to apply the provisions of said Section 39 of the Act to each of the Allocation Areas; and

WHEREAS, the Commission now desires to approve the designation of each of the Allocation Areas and the amendment of the Plan to include each of the Allocation Areas therein (collectively, the “Amendments”); and;

WHEREAS, the proposed Amendments and supporting data were reviewed and considered at this meeting;

NOW, THEREFORE, BE IT RESOLVED by the South Bend Redevelopment Commission as follows:

1. The Commission hereby finds and determines that the Amendments promote significant opportunities for the (i) gainful employment of the citizens of the City of South Bend, Indiana (the “City”), (ii) attraction of major new business enterprises to the City, and (iii) retention and expansion of significant business enterprises existing in the boundaries of the City and meets other purposes of Sections 2.5, 41 and 43 of the Act, including without limitation benefiting public health, safety, and welfare, increasing the economic well-being of the City and the State of Indiana (the “State”) and serving to protect and increase property values in the City and the State.

2. The Amendments cannot be achieved by regulatory processes or by the ordinary operation of private enterprise without resort to the powers allowed under Sections 2.5, 41 and 43 of the Act because of lack of local public improvements, existence of conditions that lower the value of the land below that of nearby land, multiple ownership of land, and other similar conditions.

3. The public health and welfare will be benefited by accomplishment of the Amendments.

4. It will be of public utility and benefit to further amend the Declaratory Resolution and the Plan for the Area as provided in the Amendments and to continue to develop the Area, including each of the Allocation Areas, as provided under the Act.

5. Accomplishment of the Amendments will be a public utility and benefit as measured by the attraction or retention of permanent jobs, an increase in the property tax base, improved diversity of the economic base and other similar public benefits.

6. The Commission hereby finds that the further amendment of the Declaratory Resolution and the Plan, to designate each of the Allocation Areas, conforms to the comprehensive plan for the City.

7. The map and plat of each of the Allocation Areas showing its boundaries, the location of the various parcels of property, streets and alleys, and other features affecting the

acquisition, clearance, replatting, replanning, rezoning, redevelopment or economic development of each of the Allocation Areas, and the parts of each of the Allocation Areas that are to be devoted to public ways, levees, sewerage, parks, playgrounds and other public purposes under the Plan, are hereby approved and adopted as the map and plat for each of the respective Allocation Areas.

8. The Amendments are reasonable and appropriate when considered in relation to the Declaratory Resolution and the Plan and the purposes of the Act.

9. The findings and determinations set forth in the Declaratory Resolution and the Plan are hereby reaffirmed.

10. The Commission finds that no residents of the Area will be displaced by any project resulting from the Amendments, and therefore finds that it does not need to give consideration to transitional and permanent provision for adequate housing for the residents.

11. The Amendments are hereby in all respects approved.

12. The area described and depicted in Exhibit A is hereby removed from the Allocation Area, and is hereby designated as a separate “allocation area” pursuant to Section 39 of the Act to be known as the “Lafayette North Allocation Area,” for purposes of the allocation and distribution of property taxes for the purposes and in the manner provided by said Section. ## Maps of the Downtown South Allocation Area

## **EXHIBIT I**

### **PLAN SUPPLEMENT**

The Plan is further supplemented and amended to add the descriptions for the territory to be known as (i) the “Lafayette North Allocation Area” as described at Exhibit A, (ii) the “Lafayette South Allocation Area” as described at Exhibit B, (iii) the “Ignition Park Allocation Area” as described at Exhibit C, (iv) the “Downtown North Allocation Area” as described at Exhibit D, (v) the “Michigan Street Corridor Allocation Area” as described at Exhibit E, (vi) the “Studebaker Campus Allocation Area” as described at Exhibit F, (vii) the “Riverfront West Allocation Area” as described at Exhibit G, and (viii) the “Downtown South Allocation Area” as described at Exhibit H.

Tax Increment Revenues from each of the Allocation Areas may be used to support all or any portion of the development, design, construction, equipping, and improving, as the case may be, of economic development projects that are located in or serve the respective Allocation Areas.

The Commission anticipates capturing tax increment revenues from each of the Allocation Areas and applying such tax increment revenues to offset payments by developers on promissory notes in connection with economic development revenue bond financings undertaken by the unit, or to pay principal or interest on economic development revenue bonds issued by the unit to provide incentives to a developer, in furtherance of the economic development or redevelopment purposes of each of the Allocation Areas.

Based on representations made to the Commission, the Commission has determined that the full development of each of the Allocation Areas with the improvements described above, will not proceed as planned without the contribution of tax increment revenues to be derived from each of the Allocation Areas to the projects described above.
