**Re: Post ACM Removal Clearance Report
Studebaker - Phase IV
Foundry (Building # 85) - West Shaker Unit & Tank Area
South Bend, IN
Project #: 11.2557**

Dear Mr. Teagarden:

Attached please find the clearance report for the air samples collected, on March 3, 2011, following the removal of asbestos-containing materials from the above captioned location.

The air sample analyses verified that the air quality remained within acceptable limits as defined by the United States Environmental Protection Agency, the Indiana Department of Environmental Management, and the Occupational Safety and Health Administration.

Please call if you have any questions.

Respectfully submitted,

Matthew Rugg
Project Manager

Fiber Concentration Report

DATE: March 4, 2011 CONTRACTOR: Dore & Associates Contracting Inc.
 PROJECT: Studebaker Area "A" CLIENT PROJECT #:
 Foundry Building
 West Shaker Unit & Tank Area REPORTED TO: Mr. Jeff Teagarden
 AMERECO PROJECT #: 11.2557 Dore & Associates Contracting
 900 Harry S. Truman Parkway
 P.O. Box 146
 Bay City, MI 48707
 ANALYTICAL METHOD: PCM - NIOSH Method 7400
 400-450X Magnification

 The following is the analyses of 8 air samples taken after the asbestos removal project at the above captioned site. The samples were analyzed by NIOSH Method 7400 using Phase Contrast Microscopy at 400 - 450X magnification. Method 7400 measures the concentration of all fibers present, asbestos and non-asbestos.

Certificate of Completion

Asbestos Abatement

Client Name: DORR & ASSOC. CONTRACTING

Location: STUDEBAKER FOUNDRY BUILDING # 85

Description: WEST SHAKER UNIT & TANK AREA - TSI REMOVAL

Based on the results of: continuous on-site work practice and engineering controls, daily area and ambient monitoring, final visual inspection and clearance air sample testing and analysis for the above listed project:

The project area and adjacent staging and holding areas are certified clean and free of all visible suspect asbestos debris, therefore, fit for re-occupancy. The adjacent areas, buildings, and the surrounding environment were unaffected by abatement activities, and all ambient air sampling tests remained within acceptable limits.

This form must be completed pursuant to the Indiana Department of Environmental Management's Air Pollution Control Board's Final Rule 326 IAC 14-10-4 (10).
