

## Grauvogel & Associates

# MEMORANDUM

**DATE:** March 12, 2004

**FROM:** Larry Grauvogel

**TO:** Andy Laurent/SB, Terry Baehr/Hull, Lance Turley/Hull

**SUBJECT:** Oliver Plow – Green Paint Disposal

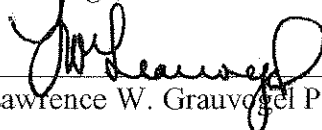

The third and final load of this lead contaminated soil was shipped this morning. The amounts were:

Manifest	Date	Volume (CY)	Weight (Tons) (approximate)
9461730	3/08/04	18	24
9461731	3/08/04	20	33
9461728	3/12/04	20	30

This completes the outstanding environmental issues at Oliver Plow on our list, except for the returned copies of these manifests with the disposal facilities signatures. These should come to Jason Durr at the Board of Public Works address, but Kevin Perkins should keep me in the loop as well.

The waste is bound for Perma Fix in Brownstown MI for stabilization and then landfilling I believe by WM.
