RE: Ongoing Support for Area C Soils.
SBI017.200.0026

Dear Ms. Kolata and Mr. Laurent:

Pursuant to our recent conversations, Hull & Associates, Inc. (Hull) will incur costs, above and beyond those projected in the current General Consulting phase budget under Hull billing reference number SBI-017. The costs will be related to the following activities:

1. File collection and summary for VRP site(s) in South Bend;
2. estimation of future costs for remediation of Areas A, B and C in support of the City's cost recovery efforts;
3. environmental consulting support for interim remediation and corrective action of soils in Area C; and
4. environmental support for initial management of U.S. EPA grants.

We anticipate that the total costs for the above services will be \$5,500.

Please contact me if you have any questions about this proposal

Sincerely,

W. Lance Turley, Sr. Project Manager

WLT/kf

Ct: Terry Baehr
Phil Hutton
