Project #: 11.2610**

Dear Mr. Teagarden:

On April 4, 2011 a visual inspection was performed by Ameresco of the Tunnels at the above location after the asbestos abatement was completed in these areas. Nicholas Zuniga toured the site with Ameresco and showed the areas where asbestos was removed. A visual inspection was also performed of the tank in the roof-top elevator room. These areas passed visual inspection.

Please call if you have any questions.
