Redevelopment Commission Agenda Item

DATE: July 25, 2017
FROM: Patrick C. Kerr, Ph.D., P.E., Director of Redevelopment Engineering
SUBJECT: Budget for Ireland Rd Traffic Study

PURPOSE OF REQUEST:

In working with Redevelopment staff, Public Works has identified a need to address the traffic on Ireland Road. It is anticipated that in order to serve future developments along Ireland Road, particularly the developments on St. Joseph Street, the existing system capacity may be insufficient and that improvements to the system may be required.

The budget funds will be utilized for professional engineering services to study the Ireland Road Corridor. Staff requests approval of \$15,000 from the SSDA for the project.

INTERNAL USE ONLY: Project Code: **TBD**

Total Amount new/change (inc/dec) in budget: _____; broken down by:
Acct # **430-1050-460-31.02** Amt: **\$15,000**; Acct # _____ Amt: _____;
