#### PURPOSE OF REQUEST: **South Main Street Parking Lane Improvements**

This budget request will support the construction of parking improvements along South Main Street from Dean Street to Sherwood Street. In the past five (5) years, there were 12 total crashes with seven (7) involving parked cars belonging to residents. Due to numerous crashes along this segment of South Main, Engineering recommends the creation of a concrete bump-out to provide protection for the existing on-street parking. The work would entail the removal and replacement of the current concrete curb, full depth asphalt removal and replacement, and drainage improvements.
