**CITY OF SOUTH BEND JAMES MUELLER, MAYOR  
DEPARTMENT OF ADMINISTRATION AND FINANCE**

January 29, 2025

Dear Members of the Common Council,

This letter is pursuant to Sec 2-123.2. of the City Code: Regulations and reporting mechanisms on City usage of alternative fuels-Compressed natural gas (CNG) and liquefied natural gas (LNG). The reporting period is 1/1/2025 to 12/31/2025

1. The City of South Bend is an active member of the Drive Clean Indiana and MACOG organizations. The Central Services Division is working together with these organizations to look for opportunities to reduce our petroleum consumption, carbon footprint and improve air quality in our region.
2. The City of South Bend currently owns 205 vehicles that can operate on Compressed Natural Gas. As a result, the City used 200,633 diesel equivalent gallons of CNG at a cost savings of \$318,958 from 1/1/2025 to 12/31/2025.
3. The City of South Bend partnered with Transpo to build a fast fill CNG fueling station which opened in 2016. This station services the City and Transpo fleets.
4. There is one public CNG fueling site operated by ING, CNG Services, located at 6161 Brick Road.
5. For year 2025 there were no Energy Efficiency and Conservation Block Grants.
6. Along with the 205 vehicles using CNG as a fuel source, the City also has one (1) electric car, four (4) Electric motorcycles, and forty-three (43) hybrid vehicles.

Please feel free to contact me with any questions.

Respectfully,

Adam Cole, Director of Central Services  
Central Services Division
