- 3 The petition of DEPARTMENT OF REDEVELOPMENT CITY OF SOUTH BEND seeking the following variance(s): From the 150' maximum building width in U3 for a stacked flats building to 260' [21-08.02(j)(3)], property located at 2018 MAIN ST and 2020 MAIN ST. Zoned U3 Urban Neighborhood 3. (Audio Position: 06:31)**

STAFF REPORT

The staff report was presented by Mark Dellostritto .

Analysis: Despite the building being wider than is allowed according to the zoning ordinance, the design meets the intent of the maximum width rule by breaking up the front facade with consistent articulation and a central courtyard along Main Street. Each wing of the proposed building would be below the maximum building width standard. This building will also be narrower than many others in the surrounding area, which is more auto-oriented and commercial/industrial in character, diminishing the importance of the building width rule in general. Finally, having an elevated walkway connection that would make the building compliant in terms of width would not be practical considering the location of the ground floor shared amenity spaces and the accessibility requirements of some of the units.

Staff Recommendation: Based on the information provided prior to the public hearing, the staff recommends the Board approve the variance as presented.
