Certificate of Completion

Asbestos Abatement

Client Name: Dore & Associates
 Location: Studebaker Foundry Building - Above Ground
 Description: Gross Removal/Glove Bag of ACM Pipe Insulation

Based on the results of: continuous on-site work practice and engineering controls, daily area and ambient monitoring, final visual inspection and clearance air sample testing and analysis for the above listed project:

The project area and adjacent staging and holding areas are certified clean and free of all visible suspect asbestos debris, therefore, fit for re-occupancy. The adjacent areas, buildings, and the surrounding environment were unaffected by abatement activities, and all ambient air sampling tests remained within acceptable limits.

This form must be completed pursuant to the Indiana Department of Environmental Management's Air Pollution Control Board's Final Rule 326 IAC 14-10-4 (10).
