I understand that violations hereunder may result in forfeiture of contractual payments.

I hereby affirm under the penalties of perjury that the facts and information contained in the foregoing bid for public works are true and correct.

RE: Studebaker National Museum Project A: HVAC Equipment Replacement

H&G Services is pleased to provide the following bid clarifications in accordance with drawings and specifications dated June 30, 2026, and one (1) addendum

Bid Clarifications:

- No VFDs are included on RTU-4 and RTU-5. The existing RTU-4 and RTU-5 are constant volume units. The proposed replacement equipment is also a constant volume unit with a constant volume supply fan. The model number specified in the equipment models is a constant volume unit but the control schematic shows a VFD on the supply fan.
- Manufacturer provided powered exhaust kit is also constant volume and does not include VFDs.
- No air flow monitoring stations on outdoor air included. This is not necessary for control sequence and is not a standard accessory.
- Proposed RTU-4 and RTU-5 would operate as stand alone units controlled by factory mounted controller. No integration of the controllers into the existing temperature control system is possible under this portion of the project.
